MARIA
VERDONCK

INTRODUCTION

Software developer with a focus on web development and interest and experience with graphic design. Likes working individually and in team. Also very interested in project and business analysis and management.

I get great satisfaction from working on projects from start to finish. My focus during my education was software development, but I also have a big interest in business analysis and like thinking with clients on what a project should look like.

EDUCATION

Applied Computer Science / UC Leuven-Limburg
2016 – 2019

Bachelor Computer Science / KULeuven *(partially)*
2012 – 2016
